

PROJECT ARCHITECT

Studio 333 Architects is currently seeking a Project Architect to join our team. We are looking for a self-directed individual to support our goal of delivering excellence in design.

Studio 333 Architects is an innovative design firm based in Ogden, Utah. Our design studio is located within a modernized 140 year old historical building in downtown Ogden. We are close to multiple transportation options, awesome restaurants, parks, shopping, skiing, mountain biking, hiking, etc. Our studio is designed around an open, creative and collaborative environment in which everyone has a voice and all design thoughts and opinions are valued and heard. We have been in business for 64 continuous years and provide a wide array of services including Architectural Design, Interiors and Planning (www.studio333architects.com).
